

INSTALLATION INSTRUCTIONS | R6W Series Pull-Down Wall Lighter: FA-19 Accessory Holder

Note: Before attempting installation please refer to your local electrical code.

INSTALLATION

- Insert LF49 Lens, FA-54 Louver, or FA-53 Snoot into the FA-19 Accessory Holder by placing the edge of the media under retaining clip
- Using two fingers on the bottom side of the Accessory Holder, depress the opposite Retaining Clip inward and place the media into the final position
- When inserting two (2) pieces of media, install them stacked, simultaneously into the Accessory Holder

- Install the FA-19 Accessory Holder to the Wall Lighter by placing one side into the luminaire face
- Gently push the other side into position until the Accessory Holder Retaining Springs are securely engaged
